Dear Neighbour,

**RE: CONSTRUCTION WORKS AT EAST BARNET UPPER SCHOOL SITE**

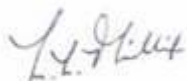

As I'm sure you know, in September 2010, a brand new secondary school, JCoSS, will be opening on the playing field adjacent to the site of the current East Barnet Upper School. At the same time, the Upper school will move to a new building on Chestnut Grove, providing Barnet with not one, but two, new state-of-the-art school buildings. In due course, the existing buildings on the site will be demolished and replaced with an all weather pitch.

I am writing to bring you up-to-date with progress. I am pleased to tell you that, after careful consideration, we have appointed Ardmore Construction Ltd to undertake the necessary building work. Ardmore is a member of the Considerate Contractors Scheme and we will be working with them to ensure any disruption is kept to an absolute minimum.

Ardmore is commencing work on site this week. This will initially involve installing some temporary fencing, drainage and temporary roads. It shouldn't be too noisy and the majority of works will be away from residential areas.

During the next couple of weeks there will be deliveries to the site via both Westbrook Crescent and Castlewood Road/Northfield Road. The contractors have been instructed that these should take place during working hours (between 8am-6pm) and a safety plan has been agreed with the school.

Some disruption is inevitable with any development of this kind and I want therefore to apologise for this in advance. Please rest assured, however, that it is our intention to minimise any nuisance. If you have any complaints or queries about the work being carried out, please do not hesitate in the first instance to call Roger Cullen, Ardmore's Project Manager, on 07956 807015 or, if you prefer, contact JCoSS directly on 07713 509134.

Yours sincerely,  
Michael Phillips  
Chair, JCoSS Trust
