## Save Our Suburbs

Open Spaces and Suburban Town Centres  
in the London Borough of Barnet

**from**

**32,000** more homes

a **64,000** population increase

**?** more cars

**You can still save your street**

**but there is little time left**

Have your say on the Borough's Core Strategy paper

Support the Council's Three Strands Approach

Please e-mail the comments suggested overleaf or other comments to the Council at: [forward.planning@barnet.gov.uk](mailto:forward.planning@barnet.gov.uk) or post them to arrive at the address shown **before 5 p.m. on Monday 29th September 2008.**

My Local Development Framework Core Strategy wishes are:

1. **Houses - please save our suburban houses and gardens from new flatted developments and conversions.**
2. **Open Space – please give absolute protection to our small open areas and allotments along with the Green Belt, Metropolitan Open Land and parks, protect our trees and wildlife and save our back gardens and back-land from development.**
3. **Town Centres – please protect the Borough’s suburban townscapes, safeguard the variety of local retail and business outlets, limit development to flats above business premises and provide free short stay town centre parking.**
4. **Employment – please provide opportunities for people to work locally and for local small business expansion by safeguarding employment land and premises.**
5. **Transport and infrastructure – please ensure there is adequate investment in infrastructure such as public transport, doctors’ surgeries and utility provision before approving new development.**
6. **Regeneration – please save us from further high rise development, improve our failed housing estates and otherwise direct new development to designated regeneration and development areas.**
