Saturday 14<sup>th</sup>:  
11:00am - 2:00pm

Aerial image of the site

Since January 2020 Fairview New Homes and One Housing have been continuing to work to develop our emerging proposals for the redevelopment of Victoria Quarter, on the site of the former British Gas Works at Albert Road, New Barnet. The site is currently disused, and Fairview New Homes and One Housing have the combined industry experience to deliver a scheme which can unlock the site's full potential.

Thank you to all those who came to one of our public events in January, and took the time to provide feedback. We were pleased that both events were well attended, and with the level of response to the consultation we received. Since that time we have been carefully reviewing the feedback on the proposals, and where possible we have been making alterations as we have continued to develop the scheme.

Our emerging proposals continue to represent a chance to deliver a much needed increase in affordable housing provision on a disused brownfield site with existing transport links, therefore also protecting green spaces elsewhere in Barnet. We also remain committed to engaging with the local community and stakeholders in developing the scheme, and we are pleased to invite you to attend one of our upcoming events as part of the second round of public consultation on our plans.

The events will provide an opportunity to view our current proposals before we submit a planning application. We will display our detailed designs, including the changes made as a result of the consultation so far.
